PORTABLE WATER CHILLER

ASSEMBLY OF YOUR SPORTS COOL - WATER CHILLER

- STEP 1)** Unpack the Cart (*item A*) and attach the Water Manifold (*item C*) to the cart using the Tension Bands (*item G*) and bolts, washers and locknuts (*items N,O,P*) as shown in diagram.
- STEP 2)** Secure Water Tank (*item D*) to Cart using the Tie Down Strap (*item J*); locate as shown in diagram.
- STEP 3)** Connect the Male Hose from Tank to the Female Hose on the Water Manifold.
- STEP 4)** Now connect the Female Hose from Tank to a Sanitary water supply hose.

OPERATING INSTRUCTIONS

- 1) Fill Chiller Tank to full capacity with ice. As water flows through the Copper Coil Assembly (*item H*) it will become chilled. Replace ice in Tank as needed.
- 2) **CAUTION - DANGEROUS DISEASES CAN BE TRANSMITTED BY DRINKING CONTAMINATED WATER.** CLEAN AND PROPERLY SANITIZE AND FLUSH SYSTEM AFTER EACH USE. SANITIZE DRINKING WANDS AFTER EACH USE.
- 3) Drain all water and remove lid from Chiller Tank when not in use.
- 4) Drain water from drinking wands when not in use.

ITEM	DESCRIPTION	QTY	PART #
